Getting Started with Artificial Intelligence

CATEGORY: AI • POSTED ON 10 MARCH 2025 • 5 MIN READ

Artificial Intelligence is no longer a distant concept. From recommendation systems to voice assistants, AI has quietly become part of our everyday lives.

This article introduces the basic ideas behind AI, including machine learning, data, and simple projects you can experiment with as a beginner.

Is Web Development Still Worth Learning?

CATEGORY: WEB DEVELOPMENT • POSTED ON 02 MARCH 2025 • 4 MIN READ

With so many tools and frameworks available, web development continues to be one of the most flexible and in-demand skills in tech.

In this post, we discuss why HTML, CSS, and JavaScript still form the foundation of the web and how beginners can start their journey.
